## The Dream Life

Jodi Hussey shares the joy of financial independence.

by K.C. Barlow

When Jodi Hussey looks back on her first year in It Works! she can hardly contain her excitement. What started as a way to earn a little extra money each month—just enough to cover her family's new minivan payment—has transformed almost every aspect of her life.

"It's been more than I ever could have imagined," says Jodi, who lives in Texas with her husband Paul and their five children. "It's improved everything. We've paid off all our credit cards. We actually paid cash for a brand-new Dodge truck for my husband." It Works! has provided her family with a financial independence she always thought was out of reach. "It's been a huge stress relief," she says. "Before It Works! we lived pretty much paycheck to paycheck."

### Lasting Changes

Five months after launching her own It Works! business Jodi realized she had discovered a solid income opportunity and closed the childcare center she ran out of her home. "It was really exhausting, and it took time away from my family," she says. "Now I'm home, and it's completely changed my family's life."

A few months later Jodi realized she was earning enough to retire Paul from his job as an analyst with the state of Texas. "He's home now and helping me run the business," she says. "We're able to spend more time together as a family." Thanks to It Works! they can travel as a family to destinations like Disney World without worrying about how to afford it. "We're able to enjoy ourselves and we've been able to make so many more memories with our children," she says. "My sons play baseball, and now I don't have to worry about missing a game."

### All In

Jodi has also seen It Works! products improve her family's health. The body wrap helped her get rid of the "mommy tummy" she'd found herself with after five children, and the supplements such as Greens on the Go keep everyone feeling healthy. She now spends the majority of her time helping her team members achieve their own personal and financial freedom. "I always talk to my recruits and find out what their goals are," Jodi says. "I try to keep them motivated. In this business, you're only as good as the team. Each one of them plays a vital role." **SIH**

### It Works! Accomplishments:

- ▶ Closed down in-home childcare center
- ▶ Retired her husband Paul from his job with the state of Texas
- ▶ Paid off all credit card debt

IT'S IMPROVED  
EVERYTHING. WE'VE  
PAID OFF ALL OUR  
CREDIT CARDS.
