Have a sweet tooth? A carb craving? It’s okay to indulge every once in a while when you have Advanced Formula Fat Fighter with Carb Inhibitors!

Simply take Fat Fighter up to an hour after eating, and it will absorb some of the fat and carbohydrates from your food so that your body doesn’t. Powered by NeOpuntia™ (a naturally based ingredient made from the “prickly pear” cactus) and the It Works! proprietary blend, Advanced Formula Fat Fighter delivers dynamic, clinically tested results for both men and women.

• Blocks some of the fat & carbs from meals
• Helps balance blood glucose level and reduce cravings
• Designed to be taken up to an hour after meals
• Cactus-based formula
• Does not contain shellfish

SUGGESTED USE

Adults take 2 tablets during or up to 60 minutes after each large meal.

Drink at least 8 glasses of water daily.
FREQUENTLY ASKED QUESTIONS

HOW DOES FAT FIGHTER WORK?

Fat Fighter’s active ingredient, NeOpuntia®, is derived from the prickly pear cactus, and it is the most powerful, gluten-free, kosher, and vegetarian fat-binding ingredient on the market today. Its natural fibers have lipophilic properties, binding to the fat from your foods in the stomach. As a result, some of the fat from your foods is not absorbed by the body, but rather excreted from your system naturally.

Fat Fighter also contains phaseolamin, a white kidney bean extract that acts as a carb inhibitor. The white kidney bean extract paralyzes the enzyme in your stomach that turns the starch from carbs into sugar during the digestive process. This prevents the body from absorbing some of those carbohydrates, and they are excreted naturally.

I HAVE SHELLFISH ALLERGIES. CAN I USE FAT FIGHTER?

Fat Fighter does not contain shellfish. It is a vegetable-based product that is safe for daily use for those with shellfish allergies.

CAN I TAKE FAT FIGHTER EVERY DAY?

Yes, Fat Fighter is a vegetable-based product that is safe for daily use. We recommend you take one to two tablets 15 minutes to one hour after eating your two largest meals of the day or after snacks with high fat content.

WHEN IS THE BEST TIME TO TAKE FAT FIGHTER?

Because Fat Fighter works in the stomach to absorb fat and block carbs from the foods you’ve already eaten, take one to two tablets 15 minutes to one hour after eating your two largest meals of the day or after snacks with a higher fat content.

CAN I TAKE FAT FIGHTER WITH OTHER SUPPLEMENTS OR MEDICATIONS?

Because of its binding properties, Fat Fighter should not be taken at the same time as other supplements or medications. Allow one to two hours to pass between taking Fat Fighter and using other supplements or medications.
