FREQUENTLY ASKED QUESTIONS

WHAT IS GREENS?

Greens is an energizing, detoxifying, and alkalizing blend of 38 herbs and nutrient-rich superfoods that provides vitamins, minerals, phytonutrients, and enzymes you need for your best health. The nutrients found in Greens are at their highest naturally occurring, bioactive, bioavailable form to ensure maximum absorption by your body.

The natural blend of ingredients in Greens, including an acidity-fighting combination of magnesium and potassium, is designed to alkalize the body and restore pH balance. With restored alkalinity, your body is better equipped to fight off sickness with improved immune system health and increased energy. A cutting-edge probiotic helps you maintain that healthy balance by keeping your digestive system regular and toxins flowing out.

Raw fruits and vegetables are the best foods for combating acidity and restoring alkalinity in the body. Greens gives you the nutrients of 8+ servings of fruits and vegetables in every scoop!

CAN I SKIP SOME OF MY SERVINGS OF FRUITS AND VEGETABLES IF I TAKE GREENS EVERY DAY?

It can be hard to get enough servings of the fruits and veggies you need in all of your meals every single day. With the equivalent of 8+ servings of fruits and vegetables and a blend of 38 herbs and nutrient-rich superfoods, Greens gives a big nutritional boost to your already healthy diet. Greens is not intended to be a substitute for the fresh fruits and vegetables that are so important to your health.

WHY IS MAGNESIUM AND POTASSIUM IMPORTANT FOR ALKALIZING THE BODY?

All fresh fruits and vegetables have important alkalizing benefits, but a diet of those highest in potassium is best for maintaining an alkaline, pH-balanced body. Each serving of Greens provides 250 mg of potassium in the form of potassium citrate, the strongest alkalizing agent found in citrus fruit.

Other Ingredients: Natural flavors and silica.

Contains soy.

An acidic body is not only low in potassium, but likely low in magnesium as well, as magnesium is important for regulating your body's potassium levels. When your body is unbalanced and overly acidic, it tries to counteract that acidity by releasing calcium and magnesium from the bones to promote an alkaline pH, which can lead to a magnesium deficiency within the body.

Greens' alkalizing blend of potassium and magnesium helps to restore adequate supplies of both of these vital minerals that your body needs to maintain a healthy pH balance.

HOW IS THE PROBIOTIC IN GREENS IMPORTANT FOR DETOXIFICATION?

A healthy digestive system is crucial to keeping the body balanced and detoxified by adequately removing toxins and waste. Greens includes LactoSpore®, a cutting-edge probiotic to help the body maintain an optimal balance of healthy bacteria in the digestive tract, helping to keep your digestive system regular and maximizing nutrient absorption within the body.

HOW IS GREENS DIFFERENT FROM REGULAR™?

With a cutting-edge probiotic, 38 natural herbs, and the equivalent of 8+ servings of fruits and vegetables, Greens is the foundation for good digestive health and your best overall health. Regular more specifically supports healthy colon function and ensures daily removal of toxins and waste. For those with digestive health concerns, Greens and Regular together provide superior digestive support.

THE LABEL SAYS TO AVOID TAKING GREENS 3-4 HOURS BEFORE BEDTIME. WHY IS THAT?

All of the high-quality vitamins, minerals, phytonutrients, and enzymes within Greens are invigorating to the body. Many people feel quite energized after taking Greens and have a difficult time settling down to sleep. For that reason, we recommend that you not take Greens 3-4 hours prior to bedtime.

CAN I TAKE GREENS IF I AM PREGNANT?

We suggest that you consult your physician prior to using any of our products if you are pregnant or nursing.

CAN I GIVE GREENS TO MY CHILDREN?

Greens is designed for adult use and is not recommended for children. Always consult your pediatrician before giving any supplements to children.

DOES GREENS CONTAIN GLUTEN?

Yes, it does contain a small amount of gluten.
