FREQUENTLY ASKED QUESTIONS

When should I use Skinny Wrap?

Skinny Wrap is ideal for quickly defining and refining the appearance of problem areas when you need it most! The next time you need to squeeze into a little black dress or show your arms in a sleeveless top, try using Skinny Wrap for a visibly firmer, smoother, more contoured appearance. It works great on targeted areas below the neck that need a little tightening and toning—like your stomach, upper arms, thighs, sides, back, and love handles—to help your clothes fit better and give your confidence a boost.

How do I use and store Skinny Wrap?

To use Skinny Wrap, start with clean, dry skin before applying the cream side of the Wrap to your skin and smoothing it down. To keep it secure, use Fab Wrap™, plastic wrap, or form-fitting clothing. Leave Skinny Wrap in place for 45 minutes, then remove and rub any remaining cream into your skin. Wrap every 72 hours for continuous and progressive results!

Our non-woven cloth Skinny Wrap provides excellent coverage on targeted areas and can be cut to accommodate smaller areas. Each Skinny Wrap is intended for single-use and we recommend storing it in a cool, dry place.
