ALKALIZE† – BALANCE† – DETOXYFY†

FREQUENTLY ASKED QUESTIONS

What is Greens Blend?

Greens Blend is an alkalizing, balancing, and detoxifying blend of 52 herbs and nutrient-rich superfoods, fruits and vegetables, and the pH-balancing blend of magnesium and potassium.† With naturally occurring vitamins, minerals, phytonutrients, and enzymes, the nutrients found in Greens Blend are at their highest bioactive, bioavailable form. That means maximum absorption by your body to support your best health.†

The acidity-fighting combination of magnesium and potassium, is designed to alkalize the body and restore pH balance, and support the immune system for overall health and wellness.†

Just two scoops or one convenient stick pack of Greens Blend a day gives you results you can truly feel: increased energy and a clean-running digestive system, along with a detoxified, pH-balanced body for better overall health.†

Why is magnesium and potassium important for alkalizing the body?

All fresh fruits and vegetables have important alkalizing benefits, but a diet of those highest in potassium is best for maintaining an alkaline, pH-balanced body. Each serving of Greens Blend provides 250 mg of potassium in the form of potassium citrate, the strongest alkalizing agent found in citrus fruit. An acidic body is not only low in potassium, but likely low in magnesium as well, as magnesium is important for regulating your blood's potassium and bone's calcium levels. When your body is unbalanced and overly acidic, it tries to counteract that acidity by releasing calcium from the bones and amino acids from muscles to promote an alkaline pH. Without an adequate daily source of alkalizing foods and supplements, your bones get weaker and more porous and your muscles lose strength and mass.

Greens Blend's alkalizing blend of potassium and magnesium helps to provide much needed supplies of both of these vital minerals that your body needs to maintain a healthy pH balance, more resilient bones, and lean muscle mass.†

How does Greens Blend help to balance my body?

The natural blend of ingredients in Greens Blend, including an acidity-fighting combination of magnesium and potassium, is designed to help alkalize the body and restore pH balance.† With a powerful blend of naturally occurring vitamins, minerals, phytonutrients, and enzymes in their bioactive, bioavailable form for maximum absorption by your body. Greens Blend helps to increase energy, improve immune system health, and support a clean-running digestive system, all while alkalizing, detoxifying, and balancing your body for better overall health.†

How does Greens Blend help to detoxify my body?

With the natural detoxifying properties of Matcha Green Tea and a complex blend of 34 different varieties of fruits and vegetables, Greens Blend delivers the best nutrients to support your body's natural detoxification and help your body to naturally cleanse and balance for a healthier you.†

Can I skip some of my servings of fruits and vegetables if I take Greens Blend every day?

It can be hard to get enough servings of the fruits and veggies you need in all of your meals every single day. With a blend of 52 herbs and nutrient-rich superfoods, that includes 34 fruits and vegetables, Greens Blend gives a big nutritional boost to your already healthy diet. Greens Blend is not intended to be a substitute for the fresh fruits and vegetables that are so important to your health.

The label says to avoid taking Greens Blend 3-4 hours before bedtime. Why is that?

All of the vitamins, minerals, phytonutrients, and enzymes within Greens Blend are invigorating to the body. Many people feel quite energized after taking Greens Blend and have a difficult time settling down to sleep. For that reason, we recommend that you not take Greens Blend 3-4 hours prior to bedtime.

PRODUCT INFO

GREENS™ BLEND

ALKALIZE† – BALANCE† – DETOXIFY†

FREQUENTLY ASKED QUESTIONS

What flavors of Greens Blend are available?

Greens Blend is available in Berry and Chocolate.

What sizes of Greens Blend are available?

- Greens Blend jar: 30 servings (net weight: 4.5 oz (127.5 g) Berry / 6.35 oz (180 g) Chocolate)
- Greens On The Go™ Blend: 30 single serve packets (net weight: 4.5 oz (127.5 g) Berry / 6.35 oz (180 g) Chocolate)

What kinds of berries are in Greens Blend?

Greens Blend contains super-fruit berries from blackberries, blueberries, cranberries, strawberries, bilberry, amla, goji berry, and black currant as part of the blend of multiple fruits and vegetables.

What kind of chocolate is in Greens Blend Chocolate?

Greens Blend Chocolate contains Dutch-processed cocoa (also known as alkalized, unsweetened cocoa powder). The alkalized cocoa is less bitter than natural cocoa with a milder, more mellow flavor, and it dissolves more easily, making it an ideal choice for Greens Blend.

Does Greens Blend contain natural sweetener?

Yes, both Greens Blend Berry and Greens Blend Chocolate contain steviol glycosides, which is a 100% natural, zero calorie sweetener. You'll find it listed as Rebaudioside A in the "Other Ingredients" list. This purified stevia plant extract acts as the sweetening agent.

Does Greens Blend contain gluten?

Greens Blend is formulated with only gluten-free ingredients. It is not currently tested to detect gluten that may or may not be introduced during the manufacturing process.

Can I take Greens Blend if I am pregnant?

We suggest that you consult your physician prior to using any of our products if you are pregnant or nursing.

Can I give Greens Blend to my children?

Our Greens Blend is a healthy supplement for the whole family. As with any product that you consume, if you have any allergy questions or any other specific health related concerns, please contact your physician or your child's pediatrician.
