FREQUENTLY ASKED QUESTIONS

What is ENERGY?

Blended with an enhanced proprietary formula, ENERGY is a fusion of natural stimulants free of the jittery effects caused by today's leading energy drinks. The enhanced ENERGY formula also has half the sugar, half the calories, yet delivers the same powerful drive you've come to love! It's a unique mix of a full spectrum of phytonutrients, potent antioxidant-rich polyphenols, a broad spectrum of powerful B vitamins to support brain function, natural juice concentrates, and concentrated Green Tea Extract. The result is one extremely powerful Energy drink that helps support the body's ability to sustain natural energy levels. Delivering nutrients to the body, ENERGY does not contain some of the same ingredients found in other energy drinks that can wreak havoc on your body.

What are phytonutrients?

Often referred to as phytochemicals or superfoods, phytonutrients are compounds found in plants that protect the plant from environmental challenges, such as drought, the sun's harsh rays, or insects. When we consume plants rich in phytonutrients, these phytonutrients also help protect and support our health.

What are polyphenols?

Polyphenols act as powerful antioxidants. They protect your body's cells from damage that can be caused by free radicals.

What difference does crystalline fructose make in ENERGY?

Crystalline fructose is a natural fruit derived sweetener with a lower glycemic index of just 20. This means there's an 80% lower risk of blood sugar spikes. Other

sweeteners found in leading energy drinks, like sugar and high fructose corn syrup, can increase the risk of excess blood sugar spikes which can cause problems from fat storage to cardiovascular complications.

What is the source of the caffeine found in ENERGY?

The caffeine in ENERGY comes exclusively from Green Tea Extract.

What is included in the proprietary energy blend?

Pear Juice Concentrate, Caffeine, Green Tea Leaf Extract, Prickly Pear (*Opuntia ficus indica*) Puree, Niacinamide (Vitamin B3), D-Calcium Pantothenate (Vitamin B5), Blueberry Juice Concentrate, Pyridoxine Hydrochloride (Vitamin B6), Raspberry Juice Concentrate, Strawberry Juice Concentrate, Cherry Juice Concentrate, Riboflavin (Vitamin B2), Cranberry Juice Concentrate, Cyanocobalamin (Vitamin B12)]

What does ENERGY taste like?

ENERGY has a refreshing, sparkling flavor mostly thanks to the large number of natural juice concentrates in the proprietary blend.

Can children drink ENERGY?

No. ENERGY is recommended for adults 18 and older only. This beverage contains 100 mg of caffeine per can, so it is not recommended for children, pregnant or nursing women, and individuals sensitive to caffeine.

How many cans of ENERGY can a person drink in one day?

It is recommended that the average adult 18 years or older should consume no more than two cans of ENERGY per day.
