What are some of the key active ingredients in It Works! Keto Coffee?

- **MCTs** – Medium Chain Triglycerides (MCTs) are clean fats that are quickly absorbed by the body and metabolised into ketones.
- **Grass-Fed Butter** – It's a source of unique, fatty acids that help convert fat into fuel while filling you up and adding a delicious, buttery flavour to your cup.
- **Coffee Bean Extract** – This powerful ingredient provides a ketone boost to energise the whole body.
- **Collagen Peptides** – It's a protein that, when converted to amino acids, helps build and restore vital protein in your body.

Does It Works! Keto Coffee contain gluten?

It Works! Keto Coffee is formulated with only gluten-free ingredients. It is not currently tested for gluten that may or may not be introduced during the manufacturing process.

What are ketones and what do they do?

Your keto lifestyle relies on ketones, a high-energy fuel source and natural derivative of fat metabolism. When your body doesn't get enough carbs from food to make energy, your liver starts breaking down fat stored on your body instead. That's when ketones are made—to help power up your body. Supporting your body with clean, quality fats—like those in It Works! Keto Coffee—allows it to create more ketones to support your low-carb, high-fat, ketogenic life.

It Works! Keto Coffee is recommended only for adults 18 years or older.

Can I use It Works! Keto Coffee if I am pregnant, nursing, or have ongoing medical conditions?
