DEFINING GEL
BODY GEL

FREQUENTLY ASKED QUESTIONS

What is Defining Gel?

Defining Gel is an intensive body gel that hydrates the skin, and firms areas such as the abdomen, back, legs, and upper arms.

What are the benefits of using Defining Gel?

Defining Gel works with Toning Body Wrap to maintain, enhance, and maximise your results. Like Toning Body Wrap, Defining Gel improves skin texture and tightness, reducing the appearance of skin slackening. It hydrates, softens, tones, and firms for an all-over smoothness that gives you more youthful looking skin.

How often can I use Defining Gel?

Apply once or twice daily to targeted areas with circular massage until gel is completely absorbed. Extra massaging will assist the toning effect of the Defining Gel and appearance of smooth skin. Your skin will be deeply hydrated, feel softer, and appear tightened, toned, and firmed! Results are progressive with continued use.

Do I use Defining Gel and Toning Body Wrap at the same time?

These products benefit each other and should be used at different times. For maximum results, use Defining Gel up to twice a day on the days between your Wrap treatments. Defining Gel is designed to enhance the tightening, toning, and firming results of Toning Body Wrap.

Does Defining Gel contain the same ingredients as Toning Body Wrap?

Defining Gel contains a small amount of the properties found in the Wraps but also contains ingredients that can help to hydrate and firm all areas of your body. Like Toning Body Wrap, Defining Gel is not intended for use on the face.

Can it be used alone or does it have to be used in conjunction with Toning Body Wrap?

Defining Gel can be incorporated into your daily beauty regimen whether you use Toning Body Wrap or not. However, your body will experience maximum results when you team up these two products.

Can I use Defining Gel on my face?

No, Defining Gel is formulated to tighten, tone, and firm the skin on the body only.

I have sensitive skin. Is it still safe for me to try this product?

We recommend always patch testing an area of your inner arm first prior to applying topically. If you are concerned about any allergy issues, consult your physician before using any skincare products.

Can I allow my child to use Defining Gel?

Defining Gel is recommended only for adults age 18 and older.

Can I use Defining Gel if I am pregnant, nursing, taking medication, or have a medical condition?

Before using any new product, we suggest that you consult your physician to find out if it is right for you.
